NICE Security Solutions

Securing Nations,
People and Infrastructure

NICE Systems security solutions help governments and public institutions ensure the security of the public. Our solutions empower security personnel to detect, prevent, and respond to threats in real-time, as well as investigate and reconstruct criminal and security cases.

NICE Security solutions include:

IP Video Surveillance

NiceVision® helps leading organizations to enhance security operations and improve performance using intelligent IP video solutions. NiceVision® integrates real-time video content analysis, IP networking, recording and management to enable automatic threat detection, instant verification, event resolution and effective investigation.

Lawful Interception & Intelligence

NiceTrack™ products and solutions cover the full spectrum of the telecom intelligence process from interception and monitoring, to processing, analysis and dissemination of telecom interactions for both telephony and internet data. The NiceTrack™ suite includes solutions for interception and mediation; monitoring and analysis; mass detection; and location tracking.

Incident Information Management

NICE Inform™ is the world's first full-spectrum, incident information management solution. It consolidates, manages, and analyzes information from multimedia sources for faster incident reconstruction, enhanced interoperability, and higher information security. NICE Inform ensures the protection, availability and completeness of incident information

Safe City Solutions

NICE Systems Safe City solutions enable municipal authorities, emergency response units and law enforcement agencies to reduce urban violence, fight crime and prevent terror threats. The NICE Safe City platform includes award winning surveillance technology, advanced video analytics and a fully equipped Command & Control Center.

About NICE

NICE Systems (NASDAQ: NICE) is the leading provider of Insight from Interactions™ solutions and value-added services, powered by advanced analytics of unstructured multimedia content – from telephony, web, radio and video communications. NICE's solutions address the needs of the enterprise, public safety and security markets, enabling organizations to operate in an insightful and proactive manner, and take immediate action to improve business and operational performance and ensure safety and security. NICE has over 24,000 customers in more than 135 countries, including approximately 80 of the Fortune 100 companies. More information is available at www.nice.com.
